

Rob Ruiter

Pragmatist – Organiser – Photo/Videographer – Analyst

I am reaching out to offer my services on a part-time/casual basis for any projects or ongoing initiatives your company may have. I bring a diverse set of skills that can adapt to various tasks and roles, as outlined below:

Practitioner: I have experience planning and physically installing telecommunications equipment. I am proficient in various "handyman" tasks, not only in the workshop but also in light property maintenance.

Analyst: I have experience collecting field data, organising it into a helpful format, and making recommendations. I am also experienced in developing pragmatic business continuity and crisis management plans.

Computer literacy – I am fully conversant with the Microsoft Office suite. I use Project *Libre* for project tracking and reporting. Additionally, I am familiar with Linux, primarily the Mint and Ubuntu distributions.

Photography and Videography – I am skilled in developing studies and reports that require media to illustrate and support their intended messaging.

Interpersonal – I formerly led a geographically distributed team of 18 South Island members. I am skilled at tailoring my communication style to suit the circumstances and required outcomes.
